THE SALVATION ARMY

Don't neglect the call of the Salvation Army for funds for work among our boys in France. You know the work you should realize its needs. Send contributions to W.C. Householder, County Chairman, or to Miss Bessie Baxter, Treasurer, Marlinton, W. Va.

Food Will Win the War

A LARGE part of the world is coming to the position that Belgium is in, coming to the stage where the primary and important thing in life is enough food to keep alive. Food has now taken a dominant position in the war. The American people must prepare themselves to sacrifice far more than was at first thought necessary. The cold facts are: France, Italy and England have just enough food to keep them going ten or twelve weeks. When America's food shipments stop—the allied nations begin consuming into this slender store and begin a swift march into actual famine conditions—which would mean defeat in short order. Europe then must live on America's surplus. Your saving increases our available stocks just that much and actually feeds some person in the countries with which we are associated in our war against the Central Powers. Our surplus wheat has already been shipped to the allies.

U. S. FOOD ADMINISTRATION

Dr. J. B. Lockridge was able to be in town yesterday. He is recovering from an illness of nearly two months.

A very heavy loss by fire is reported from Hinton.

No Camouflage For People's Store and Supply Co.

The management of this concern has been careful to observe all the rules and regulations of The United States Food Administration and we are conscious of the fact that both customers and merchants alike are being called upon to do their "bit" in helping to conserve the food supply of the country.

The People's Store & Supply Company has pledged itself to cooperate to the fullest extent in this undertaking and we believe that we are warranted in saying that our customers are willing to undergo any sacrifice that is necessary to accomplish the best results.

These regulations have suggested many changes but at present this concern does not see that it could serve any good purpose in making any radical change in its present system.

We have always insisted on settlement of all accounts once a month and on account of more strict regulations of credit by the wholesalers from whom we buy we shall emphasize settlement of all accounts once a month. This is virtually cash and will still eliminate the very unsatisfactory method of paying for each item as it is delivered.

To the mind of some another unnecessary expense is the delivery business. We believe that where it is necessary to maintain a dray outfit exclusively for delivering groceries that the expense is considerable and consequently results in a higher price being charged for goods and in this instance probably should be abandoned.

But on account of our being located so far from the railroad and operating a mill it would be an additional expense to us to depend upon hiring our hauling done by independent draymen and thus it is obviously to our advantage to maintain our own delivery service. This being the case we can deliver our goods at a very small cost.

We simply wish to make this means to inform the public that we do not mean to take any unfair advantage of the situation that is upon us by imposing unnecessary restrictions but will make changes only when they are necessary to conform to the Government's regulations or when they will result in the lowering of prices and better service to our customers.

We solicit your further patronage and assure you that your interests are our interests.

Yours very truly,
The Peoples Store & Supply Co.
Ira D. Brill, Mgr.
